Demak, Central Java

Summary

Computer Engineering graduate from Diponegoro University with practical experience in web development, database systems, and real-time application integration. Experienced as a Frontend Developer during an internship at Dinas Komunikasi dan Informatika as well as in a real-time monitoring and control system development project for laboratory applications. Possesses strong analytical thinking, problem-solving, and teamwork skills, with the ability to quickly adapt to new technologies and collaborative software development environments. Highly motivated to continuously learn, grow, and improve professional competencies in a sustainable manner.

Education

Diponegoro University

Semarang, Indonesia

Bachelor of Computer Engineering, Faculty of Engineering (GPA : 3.74/4.00)

Aug 2022 – March 2026

- Relevant Coursework: Software Engineering, Object-Oriented Programming, Data Structures, Database Systems, Operating Systems, Human-Computer Interaction, Mobile Application Development, Internet of Things (IoT), Embedded Systems, Artificial Intelligence, Control Systems and Automation, Signal Processing, and Information System Security
- Publication (Accepted – Scopus Q4 Journal): "Real-time Monitoring and Remote Control of Laboratory Furnaces using MQTT and Role-Based Access Control." *AMPLITUDO: Journal of Science & Technology Innovation*, Vol. 5, Issue 2, Aug 2026.

Experience

Dinas Komunikasi dan Informatika

Pekalongan, Indonesia

Frontend Developer (Intern)

2 Jan 2025 – 31 Jan 2025

- Developed responsive user interfaces using PHP (CodeIgniter) and Bootstrap based on UI/UX design specifications, with a focus on improving user experience and ease of navigation
- Designed and developed application features from the ground up, including data flow and system logic implementation, contributing to the successful delivery of 7 new functionalities

CV Bangun Jaya Komputer

Semarang, Indonesia

IT Support Technician (Intern)

Apr 2021 – Jun 2021

- Installed and configured Windows operating systems on 5 client devices, ensuring efficient deployment and optimized system performance
- Troubleshoot and resolved issues on PCs, printers, and other hardware/software components
- Conducted hardware and software maintenance to ensure optimal system performance
- Provided data entry and administrative support, accurately processing 50 records and streamlining office operations

Organization

Himpunan Mahasiswa Teknik Komputer

Semarang, Indonesia

Staff of Training and Career at RISTEK

Sep 2023 - Apr 2024

- Served as Vice Coordinator of the Recreation Event in the Cadreization Division, contributing to the planning and execution of four activities to enhance student engagement
- Managed the execution of workshop activities for new Computer Engineering students at Diponegoro University to introduce the university's four research pillars and the department's four core disciplines, engaging 185 participants

Project

Furnace Monitoring & Control System - Energy and Nanomaterials Laboratory, Faculty of Science and Technology, Universitas Jambi

Software Developer

Aug 2025 – Nov 2025

- Developed a real-time monitoring system using MQTT with Role-Based Access Control (RBAC), integrating a React frontend with a Node.js backend to enable seamless real-time data communication for remote furnace monitoring and control operations

- Built a web-based interface for remote control and real-time data visualization, achieving 93% performance and 91% accessibility in Google Lighthouse testing, indicating strong optimization and good user experience
- Developed a furnace monitoring and control system designed to support Chemical Engineering students' research activities, with the goal of improving the efficiency of experimental data collection

Leadership & Activities

Research Orientation (Recreation)

Semarang, Indonesia

Vice Chairperson

Sep 2023 – Oct 2023

- Co-led the organization of a workshop-based research orientation program for 185 participants
- Coordinated event execution and ensured alignment with four research pillars and core disciplines in Computer Engineering
- Collaborated with committee members to manage planning, logistics, and program delivery

Orientasi Diponegoro Muda Fakultas Teknik (ODM FT)

Semarang, Indonesia

Volunteer Staff, Licensing Division

Jul 2023 – Aug 2023

- Assisted in managing event permits and administrative requirements for program execution
- Coordinated with internal teams to ensure compliance with licensing procedures
- Coordinated logistics and facilitated communication to ensure successful execution of orientation activities, resulting in enhanced participant engagement

The ACE – UI/UX Competition

Semarang, Indonesia

Volunteer Staff, Public Relations

Jul 2024 – Oct 2024

- Managed communication for a UI/UX competition involving 145 participants, ensuring timely responses to inquiries and effective coordination with judges

Additional

- **Hard Skills:** JavaScript, React.js, HTML, CSS, Bootstrap, PHP (CodeIgniter), .NET (Basic), API Integration, MySQL, SQL Server (Basic), Git, Microsoft Office
- **Soft Skills:** Analytical thinking, attention to detail, adaptability, time management, and teamwork.
- **Languages:** Indonesian (Native), English (Intermediate – TOEFL Score 466)

Certifications

- **CCNA: Enterprise Networking, Security, and Automation** - Cisco Networking Academy, 2026
- **CCNAv7: Switching, Routing, and Wireless Essentials** - Cisco Networking Academy, 2024
- **CCNAv7: Introduction to Networks** - Cisco Networking Academy, 2024
- **Database Foundations** - Oracle Academy, 2024
- **Database Design** - Oracle Academy, 2024
- **IT Essentials** - Cisco Networking Academy, 2023
- **Software Engineering (Programming)** - BNSP, 2022
